

CVATD hosts a variety of professional development and networking opportunities throughout the year.

Coffee, Chat, and Contacts

Typically held monthly on the first Friday of the month from 7:45 am – 9:00 am. This is a great opportunity to learn something new, meet new people, or ask questions. Most events are held virtually.

Lunch and Learns

Grab your lunch and join us for a virtual session to learn something new and network with your peers. Sessions are held from 12:05 pm – 12:50 pm every few months.

Workshops

Workshops allow participants to gain hands-on experience and dive deeper into professional development topics. These programs are typically offered twice a year.

Special Interest Groups (SIG)

A Special Interest Group (SIG) is a smaller group of members within the Cuyahoga Valley ATD Chapter who share a similar interest in a specific topic. SIGs offer programming and networking opportunities centered around a particular topic.

Informal Social Gatherings

If you want to expand your network and deepen your relationships, join us for informal social gatherings. We meet at a restaurant for a relaxed conversation with our “CVATD family,” and everyone picks up their own tab.

Visit cvatd.org for more information and to register for upcoming events.
